Our 4-Step
Inspection Process Before Handover

At Vichara, we take quality seriously. Every project undergoes a rigorous 4-step inspection process before being delivered to our clients, ensuring the highest standards of construction.

The process includes:

1

Third-party inspection

We engage a trusted third-party inspection company to conduct a comprehensive structural assessment, ensuring impartial and professional evaluation.

2

Internal Review by Project Manager

Our project manager performs a thorough review of all construction elements to ensure that everything aligns with project specifications and safety standards.

3

Consultation with Construction Inspector

We consult with certified construction inspectors to further validate quality and compliance with engineering and building codes.

4

Final Inspection by Vichara Quality Team

Our in-house quality control team conducts the final inspection, verifying every detail before *handover.* If any issue arises, we are committed to resolving it immediately. Ensuring your confidence in our work
